

The Factory Afterbirth of "Sideline Management Systems" that Led to the Death of Leadership

Here Factory Sideline Management Control to Here

WARNING: This page exposes the arrested development of sideline managers who assumed control of the wimp-a-faction of a once bad ass nation, Forgive them for they know, not what they don't do, they BOUGHT into systems, no different than me & you.

Dear sideline managers,
You royal highness finks,
You had quite a run but
you might oughta run,
Because once people see
you can't do anything,
your rein of royalty will be
Justifiably OVER & DONE.

We need leadership NOW,
Not weakass Management.

Students & workers in both factories are treated like management spare parts

What year was sideline management born and frontline leadership start to die? **1918**

In 1918 all states mandated that factories could no longer use child labor. Using the factory mass production model as a new factory employee prep school, our nation created "**The Education System**". It was a factory prep school where learning be damned. These kids were hard to control.

DI = Dull & Industrious C = Cheerleaders Judges = Gods

3 Stooges of Educational System Sideline Management		
 DIC Do it right!	 YAC You can do it!	 DIT Polly wana cracker!

3 Stooges of Business System Sideline Management		
 DIM You can't do that!	 DOC Go, Go, Go!	 DIPM You know nothing!

3 Stooges of Reality Shows Duh Grading Judges on the Sidelines		
 Simon Dreadful!	 Paula You're great!	 Randy That wasn't good!

Ryan

These are your "Simon Says" Duh Grading Management Idols!

Tough American kids needed to learn how to 1. Follow orders 2. Be on time 3. Do boring repetitive work like robots

It was a management "system" born to condition hard working children, who busted ass but needed to learn what Futurist Alvin Toffler wrote were **3 core important factory lessons:**

1. **Obedience**
2. **Punctuality**
3. **Do boring repetitive work**

- in ORDER to manufacture workers who:
- ✓ Follow direct orders from management without questioning
 - ✓ Punch a timeclock, to be to work on time (hear factory bells ringing)
 - ✓ Be able to handle manufacturing the same thing over & over, every day for the next 102 years.

It was a learning bait & switch based on building factory workers, not knowledge:

- It was the birth of Education Systems.
- It was the birth of Management Systems.
- It was the birth of sideline jockeys Systems.
- It was the birth of Judgement Day Systems.
- It was the birth of the DI teacher.
- It was the birth of the DI coach.
- It was the birth of the DI cheerleader.
- It was the birth of DI business teacher.
- It was the birth of DI business coach.
- It was the birth of DI business cheerleader.
- It was the birth of Simon Says Judges.
- It was the birth of Paula Says Judges.
- It was the birth of Randy Says Judges.
- It was the birth of sideline Teddy Bears.

- It led to the death of Training.
- It led to the death of Pioneers.
- It led to the death of Leadership.
- It led to the death of Performance.
- It led to the death of Freedom Fighters.

These "Systems" MANAGED to kill Pioneer & Leadership development in the "Process".
